

The background is a deep blue space scene. On the left, a large, detailed Earth is visible, showing continents and clouds. To its right, the rings of Saturn are partially visible. A bright, glowing light source, possibly a star or planet, is positioned behind the Earth and Saturn, creating a strong lens flare effect that stretches across the upper half of the image. The overall color palette is dominated by blues and teals, with the bright light source adding a yellowish-white glow.
